EN ROUTE TO STONY MOUNTAIN.
Fires Press.

Constables G. C. More and J. E. Blackwell, of Fort Saskatchewan, arrived in the city yesterday and will go to Stony Mountain this afternoon with a couple of prisoners, Fred Wilson and Joe Murphy, who were sentenced in the Edmonton court to two and a half years each for appropriating a quantity of furs from the Strathcona freight office. Both are young men. Murphy being only nineteen and Wilson a year older. All offenders sentenced to more than a year's confinement have to be brought to the Manitoba penitentiary. The need of a long term penitentiary somewhere around Edmonton is becoming pressing. Steps were taken a year ago to erect one there, but nothing very definite has as yet been done. The Edmonton district, Constable More says, is filling up very rapidly. Very few but Americans are going in, but these are coming in shoals and are buying large tracts of land. They are settling in the district east of Edmonton very rapidly and are extending as far as the outskirts of the Barr colony reserve. Coming in from Vegreville by reports having met fully fifty loads of settlers and their effects on their way to their homesteads. The accommodation is quite equal to the task of housing the incoming masses though it is taxed to the utmost. No tents have yet had to be used except where a few settlers are making use of them while getting houses built on their farms.

NEW SETTLES POURING IN.

Trinidad, May 11th.
Over seven hundred immigrants arrived in Winnipeg last night. The regular came in at 1.30 with one hundred English settlers on board and two special arrivals soon after midnight with 627 more immigrants, including 263 Russians, 100 Germans, 50 French, 60 Italians, 30 Scandinavians and 200 Britishers. The regular, which is three hours late today has on board about 50 English immigrants. Two special left Montreal yesterday and one early this morning, having on board altogether over 1,300 immigrants who were passengers on the German steamer Aaria, and the Allan liner Morganton. These will reach Winnipeg either tomorrow or Sunday morning.

Terrible Railway Wreck

Fort, William, Ont., May 7.—About 1 o'clock this morning a wreck occurred on one of the main lines west of the city in which twelve men were killed and eight badly wounded. The doctors of the town were out on the wrecking train from here but received word to return on the passenger train, No. 2, before reaching the wreck. Dr. Hamilton, the C. P. R. surgeon, went on to the wreck.

The cause of the wreck was that one of the building cars jumped the track, going over on its side and another car was supposed to have telescoped (the building car). The car caught fire and the men were shut in with no means of escape and were burned to death, eight out of the car only being rescued by the train crew who the men are probably fatally injured. Provision is made already for the receiving of the injured at the cottage hospital here.

The scene that presented itself to the more fortunate on the train, who hastened to render what assistance they could, was appalling in the extreme. The cries of those confined in the burning car were plainly heard, but the fierceness of the flames made all attempts at rescue abortive. For a time it seemed that all the occupants of the telescoped car were doomed, when by some accident one of them fell through a window and he was quickly "gripped" by six or seven others all of whom were fearfully burned, and their recovery is doubtful.

The injured were carefully cared for by those who escaped uninjured, and brought into the hospital here.

It was very difficult to get to the scene. Those who accompanied the injured here can offer no cause for the wreck. They all agree, however, that the victims suffered very little from the flames before the flames reached them.

Seven of the injured men from the wreck were brought here on the train. For three of the men there is little hope for recovery. One of them escaped through the end of the burning car and is severely burned about the head and body, and it is thought, will not live many hours.

The seven men who escaped out of the burning car alive were saved by one of them luckily falling through a window and the others followed him.

There is nothing left of the car but the ashes and the bones of the twelve men who lost their lives. The men were mostly foreigners, and are no known here as they were from the Rat Portage division.

BEAVER LAKE EAST

Seeding began on April 28th, but there was very little done till May, the night frosts retarding operations. The air is very smoky as prairie fires are raging all around.

Mr. Ferrett, the general school inspector for Northern Alberta, was here lately inspecting our school. The church here has been closed almost all winter, but we are expecting a change soon.

Stock came through the winter all right. In some cases there was a scarcity of feed, but all managed to get enough from neighbors to tide the cattle over till the prairie was clear of snow.

The Ladies' Aid of the Presbyterian church intend holding a picnic on June 10th on the grounds of Mr. Joseph McCullum. There will be lemonade and ice-cream in abundance. A program of addresses, etc., will be arranged.

Miss Jennie Wilson had a narrow escape from serious injury lately. She was riding a horse across the prairie to where her father was at work when the pony became fractious and threw her. We are glad to state that she is all right again.

If possible, children of proper age should be sent to school regularly. It is a positive detriment to the child and is a positive detriment to the school. It is sending children in this haphazard fashion to the "attendants" rather than his children, very likely, have learned nothing "it is keeping everlasting out of it that pays in this as in other things."

EDMONTON INDUSTRIAL

The regular meeting of the directors of the Edmonton Industrial Exhibition Association was held in F. F. Hines' office last night. The contract will be let today for painting all the buildings in the exhibition grounds. Flooring will be put in all booths underneath the grand stand. Tenders are called for the erection of a new dining hall. The secretary is in correspondence with the directors of the Winnipeg Exhibition regarding additional attractions for our great summer fair. The contract with the Hand Fireworks Company of Hamilton, was signed. This ensures a grand fireworks display recent to some extent before given the West.

WESTERN RAILROADS.
Ottawa, May 8.—Sir Charles Rivers, Wilson left for Montreal last night. He said he would return on Wednesday, when the Grand Trunk Pacific bill comes up for consideration, and would remain until the measure is through committee, a statement which indicates that he has no doubt of its adoption. The Grand Trunk president is probably right in his belief, as according to current reports, the government has approved of the bill provided certain amendments are carried out. Until the minister of railways has formally expressed the government view, however, this statement cannot be regarded as official. Previous to leaving here Sir Charles said: "As you are probably aware, there have been some rumors in circulation that the Grand Trunk company were not behind the Grand Trunk Pacific enterprise. I strive to make it clear to the railway committee this morning that this opinion was altogether erroneous."

"Are you free to state what kind of financial aid you desire from the government?"
"I would rather not discuss that. Naturally we expect to get a reasonable amount of assistance. No company can be expected to promptly build 3,000 miles of railway, steadily through a new and largely unsettled country without getting some aid. What form that aid should take is for the government to determine."
"It has been suggested that, in the prairie sections, there will be sufficient traffic and the cost of construction compared with other parts of the country will be comparatively speaking, so light that a subsidy is unnecessary."
"I take it that the people of the west urgently need such an outlet to the seaboard. The Grand Trunk Pacific proposes to supply that need. Surely for such a big transcontinental railway there would be no objection to reasonable assistance."

"Have you any knowledge as to the form of assistance, if any, which the enterprise will receive from the government?"
"I cannot give you any information on that point."

A NATURAL HISTORY SCHOOL MUSEUM.
Lacombe Advertiser.
Official Entomologist Percy B. Gregson, was in town on Thursday and left at the school, under the charge of Principal McDonald, a couple of work-lined glazed cases containing specimens of beneficial and injurious insects, which are intended to form a stepping stone to a school museum. By the kindness of the teachers, Mr. Gregson spoke a few words to each class in explanation of the object in view. The deputy commissioner of education has written that a school museum will be encouraged by the department and reported on by the inspector, and the trustees of the Lacombe school may be congratulated on being the first in the Territories.

and probably in the entire Northwest, to open the way for a natural history school museum. It is hoped the weather will be more propitious this year than last for field outings. We understand also that Mrs. Howell has donated for the museum a fine collection of named plants all well mounted.

WILL OFFER ON

MONDAY, MAY 4th, 1903,

200 = LOTS = 200

A portion of the ROWLAND ESTATE, otherwise known as "THE SYNDICATE."

Plans and Prices can be seen at the Office on and after the date mentioned.

This is the closest and best property available, and the choicest in and about Edmonton. The furthest part is from 10 to 15 minutes from the post office. The property is eminently the people's portion: is not controlled by a policy of inertia dictated by "Hebraic Hatred." The surveys conform to existing ones, and the streets will be projected to their legitimate confines. Building Sites on the verge of the hill overlooking the mighty Saskatchewan, the foliage and verdure of whose banks is not exceeded by the fiercest tropics or softest Pacific scenes, abound. Prices will be uniform and moderate, tempered as a corrective of the present indefinite craze.

TERMS.—One third Cash. Balance 6 and 12 months, interest 8 per cent. Agreements \$2 each, transfers free.

C and W. Land Grants Enquiry

Victoria, B. C., May 6.—At the investigation into the alleged scandal in connection with the repudiated land grants in South Kootenay, which were to have been awarded to the C.P.R. as the Columbia and Western subsidy, W. J. Taylor, of Roberts & Taylor, when recalled today, said he was under the impression that W. C. Wells, minister of land and works, expected personally to get something out of the deal when he took the land grants to Montreal to Sir Thomas Shaughnessy. Taylor had been in Montreal on private business and was not connected with the C.P.R., nor with the land grant matter in any way, when Wells spoke of the matter to him. His impression of that conversation was that Wells had gone to Montreal with a proposition to Sir Thomas Shaughnessy and that Wells expected something personally out of it.

Wells had said then that he had the crown grants for the rich lands in South Kootenay and that he was in a peculiar position. He thought the C.P.R. should do something, that they ought to build to Spencer's Bridge. He also said that there ought to be 30,000 acres in it, and when he remarked peculiarly that if the 600,000 were cut up among nineteen or twenty there would be little left, he had no thought in his mind of members of the government when he said this. He told Wells that he would be subjected to suspicion by carrying the crown grants around with him. His impression was that the minister had come to Montreal with the crown grants and had a conversation of his own to ask for, in answer to a question as to whether anything was intended that this condition involved a personal advantage to the minister, the witness said it was suggested.

J. D. Prentice, finance minister, was examined as to the executive meetings and the cancelling of the grants, but little new was elicited. Mr. Wells will be again examined tomorrow.

Victoria, B. C., May 7.—W. C. Wells, minister of lands and works for British Columbia, has sent the following telegram to Sir Thomas Shaughnessy at Montreal stating that he does not consider that the Canadian Pacific railway was a party in any deal in connection with the South Kootenay land matter. He said: "In connection with my evidence as to the conversations I had with Mr. W. J. Taylor in Montreal in November, 1901, wherein he informed me of a projected syndicate or company to take over the Columbia and Western lands in East Kootenay and offered me a one-twentieth share therein, equivalent to 30,000 acres, I desire to state that I have not intimated, and do not in any way desire to convey the impression, that the C.P.R. company or Sir Thomas Shaughnessy were in any way parties to Mr. Taylor's proposition, or that I have, at that time, or believe now, that Sir Thomas Shaughnessy or the C.P.R. were party to any scheme to acquire or use these lands for corrupt or improper purposes."

(Signed) W. C. WELLS.
Toronto, May 6.—Sir William Van Horne, chairman of the directors of the C. P. R., when in the city last evening, was interviewed on the matter of the commissioner of public works, Wells, charges in the British

Columbia Legislature. Sir William denied that there was anything in them and declared that if the remarks intended to imply that the Canadian Pacific or its officials were in any way connected with the charges, then Mr. Wells simply lied. The C. P. R. Sir William said, always did business in a businesslike way and had never been concerned in anything that was not strictly "up and up."

NOTICE.

To Contractors, Farmers and all who have machines liable to renewal or repair.

The business heretofore carried on under the name of the "Edmonton Iron Works" will now be transacted by the "Edmonton Iron Working Company" at the same place of business as in the past.

The new company is now installing new machinery as fast as it can be got upon the ground. The company is also prepared to furnish to the various trade all cast iron work and machined castings at a price that will prohibit importation of these things.

CONTRACTORS.

Contractors can procure cast iron columns of any design, cast weights, ash doors, truss rods, bolts, and nuts, for building and bridging purposes, etc., on shortest reasonable notice.

FARMERS.

Farmers can have their mowers, binders and threshers overhauled and put in first class state, thus, in any case, saving the expense of a new machine for some years.

OWNERS OF ENGINES AND BOILERS.

Competent men are always on hand to go into the country and repair engines and boilers that cannot be brought to the shops.

Tubes, steel for patches, patch bolts, etc., always on hand.

TERMS.

Terms cash, except in cases of contra accounts.

The new company asks no favor from the public except opportunity, therefore if work is not promptly and satisfactorily performed it will be deemed sufficient reason for the discontinuance of the customer.

Customers will confer a favor upon the company by reporting any laxity or discourtesy by the employees in the performance of their work.
